Azure Free Services

Azure Free Services is designed to reduce the cost of cloud computing infrastructure for small and medium-sized businesses. It offers customers free tier services in order to test new applications and evaluate benefits of cloud computing.

When you start using Azure with a free account, you get \$200¹ credit to spend in the first 30 days after you sign up. In addition, you get free monthly amounts of two groups of services: popular services, which are free for 12 months, and more than 40 other services that are free always.

You will be provided with:

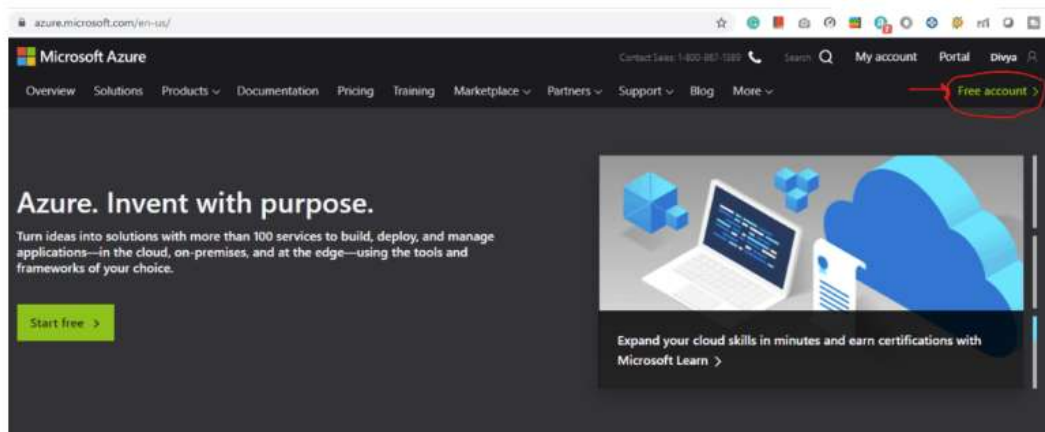

1. **€170 or \$200 free credit** for the duration of the first month. When your first month ends, the credit expires and you will be asked to choose one of the available subscriptions. We will talk about them soon.
2. **12 months of popular services for free.**
3. **25 services independently for free.** Offer might differ in different regions.
